

New New New New New

DIVA FIREPROOF SLIDING DOOR

Specially developed for fire applications, the DIVA operator automatically closes the doors in the event of fire detection, regardless of the status of the door (closing by counterweights).

We are completing our range of automatic doors with a new fireproof door: it is fitted with a DIVA operator and Boullet glazed fireproof leaves. The assembly meets the requirements of standard NFS 61-937 (Fire Safety).

DOOR CONTROLS

DIVA FIREPROOF DOOR

The DIVA fireproof door consists of a DIVA operator and a fireproof glazed modular assembly.

This assembly ensures compliance with the rules in force against fires, with the advantage of the appearance and comfort of a standard automatic door.

This glazed solution is exclusive, the only one presently qualified to meet the requirements of the standards.

The operator is now unique, whether the door is single or double, and has all the features for ensuring safety for persons and the building:

- 2 Activ8 ONE ON (Out/In) detectors for persons and giving passage safety by self-controlled infrared curtain.
- If a fire is detected, a counter weight device that depends on no outside source of energy, triggers the automatic closing of the doors. The door cannot restart in the chosen mode unless it is re-armed manually by a qualified person (push button).

TECHNICAL FEATURES

Standards	NF S 61-937-1 & 2
Fireproof leaves	Boulet - Resistance to fire up to 1 hour
Installation	Surface applied on masonry or glazed partition
Passage width min/max	1 leaf : from 900 to 1360 mm 2 leaves : from 1250 to 1810 mm
Passage height max.	2100 mm
Leaves weight max.	1 x 205 kg or 2 x 150 kg
Casing H x P	200 x 175 mm
Lintel Height	350 mm

Operator technical features: please see DIVA range documentation

- Any person can also trigger the closing of the leaves by the “Glass breaking” box. The door may be reset after the “Glass breaking” box has been reset itself.

REF. ITEMS

OPE 000586 Fireproof operator
(with counter weight device, DAS card, control panel, remote control, re-arming button, radars, glass breaking box).
